Getting started with
iOS devices (iPhone®/iPad®/iPod® touch)

You can use OverDrive's mobile app to borrow and enjoy eBooks, audiobooks and streaming video from your library on your iOS device (iPhone/iPad/iPod touch).

Note: *Some digital formats may not be available from all libraries.*

Step 1

Download our app, OverDrive Media Console (OMC), from one of the following:

- Apple App Store
- http://omc.overdrive.com/ios

Step 2

Open OMC and follow the prompts to create an OverDrive account (optional). If you see these prompts, or if you choose not to create an account, skip to step 3. After you create an account and log in, you'll be asked to create or sign in with an Adobe ID, which is required to download protected eBooks.

Note: *Only newer versions of OMC will prompt you to sign in or sign up for an OverDrive account.*

Step 3

In OMC, find your library's OverDrive-powered website. In newer versions of the app, you can do this by swiping from left to right to open the **Home menu**, then tapping + Add a library . In older versions of the app, tap the **Get Books+** button, then **Add a library.**

- Tap the ★ to save your library's website to your library list.
- Tap your library's name to start browsing.

Step 4

Log into your library's OverDrive-powered website with your library card and borrow a title.

Step 5

Find borrowed titles under your account in your library website. You can:

- Download (Select one format) EPUB Books* and MP3 audiobooks directly to OMC.
- Add streaming videos to OMC.
- Tap Read (in your browser) to open and read OverDrive Read eBooks right in your browser.
- If you've installed the Kindle® reading app from the Apple App Store, select **Kindle Book** (U.S. only) to complete checkout on Amazon's website and send the book to your Kindle reading app.

Note: *To read eBooks in OMC, you'll need to authorize your device with an Adobe® ID. It's a one-time, free process that takes just moments to complete.*
