

# CITY OF LAWTON

## SPECIAL FLOOD HAZARD DEVELOPMENT PERMIT APPLICATION

Type/Name of Development: \_\_\_\_\_  
 Address of Development: \_\_\_\_\_  
 Legal Description of Development: Lot \_\_\_\_\_ Block \_\_\_\_\_ Addition \_\_\_\_\_  
 Name of Property Owner: \_\_\_\_\_

**Lawton City Code 19A-212:** A special flood hazard development permit and payment of fees in accordance with the City's fee schedule shall be required prior to issuance of a building permit when a development is proposed in a designated special flood hazard area as determined by the Administrator.

**DO NOT WRITE BELOW THIS LINE**

	ADEQUATE INFORMATION PROVIDED
1. Plans drawn to scale not smaller than one inch equals fifty feet (1"=50'), showing existing elevations, to include highest adjacent grade, proposed finished grade elevation (land and structure), the location, dimensions and bearing of the perimeter of the tract, and existing and proposed structures.	<input type="checkbox"/>
2. Show existing and proposed structures with lowest floor elevations (MSL).	<input type="checkbox"/>
3. Location of bench marker, permanent marker, or monument which is of public record used to determine existing elevation and finished floor elevation (MSL).	<input type="checkbox"/>
4. Proposed alteration to existing elevation. The proposal shall show any proposed change to the base flood elevation.	<input type="checkbox"/>
5. Show areas of special flood hazard, including the designated floodway with hundred-year base flood elevation referenced from the FEMA flood insurance study.	<input type="checkbox"/>
6. Cross-sections of watercourse drawn to an appropriate scale at the location of the development.	<input type="checkbox"/>
7. Written description of the extent to which any watercourse or natural drainage will be allotted or relocated as a result of the proposed development.	<input type="checkbox"/>
8. For non-residential construction, a certification from a registered engineer, registered in the state of Oklahoma, or architect that the structure shall meet the floodproofing criteria required by 19A-242.	<input type="checkbox"/>
9. Plans shall be sealed by a professional engineer registered in the state of Oklahoma, and all survey information shall be sealed by a professional land surveyor registered in the state of Oklahoma.	<input type="checkbox"/>
